

CartEdge launches partnership programs

CartEdge announced a New Partnership Program today, designed to enable its clients to create their e-commerce websites. This program is all set to offer convenient and economical shopping cart websites to its customers in less than an hour. It will enable them to sell their products and services to an online audience.

Given the rapid and consistent Internet boom, e-commerce websites have unquestionably become a pivotal part of any effective business marketing arsenal. But Web site development and maintenance presents an overwhelming hurdle for Small and medium sized businesses. With CartEdge, businesses do not need to host or maintain the system; letting them concentrate on their business.

Businesses no longer need to be restricted to regional boundaries. The online shopping cart allows clients to receive orders round the clock, without geographic constraints. What's more! The services are available across the globe and offer regional currency and charges compatibility.

CartEdge has highly cost effective plans beginning from US\$25 per month! It provides vast feature set and wide assortment of eye-catching themes for the website. Clients can also get a custom design to suit their business needs and personal preferences.

" We offer a simple solution to businesses wanting an e-commerce website. We are also offering custom design for a small fee and a 0% transaction/processing fee unlike our competitors." Said Simran Khanna, marketing Head of CartEdge.
